EXPERIENCE

Freelance Web Developer

Drmediacode - Macrosoftdev

📅 Jul 2023 – Present

📍 Lebanon

- I was engaged in a contractual freelance web development project that involved creating a dynamic and user-friendly website for a client. This project required a range of technical skills and tools, including HTML, CSS, Bootstrap, Laravel, PHP, API integration, and AJAX.
- Collaborated closely with the client to understand their requirements and goals for the project.
- Implemented server-side functionality and complex features using Laravel and PHP, ensuring high performance and security.
- Integrated third-party APIs to enhance the website's functionality and provide real-time data to users.
- Utilized AJAX for seamless and asynchronous data retrieval and updates, enhancing the user experience.
- Conducted thorough testing and debugging to identify and resolve any issues promptly.
- You can view the website I worked on during this project: 🌐 mradlaw.com
🌐 developmentway.co
- While the website for the Electrical Company is not currently online, I can provide project documentation and code samples upon request to showcase the work I've done.

Software Developer, Full time

Integrated Digital Systems - IDS

📅 March 2023 – June 2023

📍 Beirut

- Code optimization and bug fixing.
- Skilled in PHP development with a strong focus on writing clean, efficient, and secure code. Continuously stay updated on industry best practices to deliver high-quality solutions.
- Extensive experience utilizing Laravel framework to build robust and scalable web applications. Proficient in leveraging Laravel's routing, authentication, ORM (Eloquent), migrations, and blade templating.
- Advanced skills in managing MySQL databases, optimizing SQL queries, and implementing indexing strategies. Ensured optimal database performance for smooth application operation.
- Proven ability to analyze complex challenges and develop innovative solutions using PHP, Laravel, and MySQL. Experienced in optimizing code and resolving technical issues to enhance overall application performance.

Software Developer, Full time

Syscom Technologies

📅 January 2022 – March 2023

📍 Tayouneh, Beirut

- Assisted senior developers in building and maintaining web applications using Laravel and JavaScript.
- Worked on the front-end using HTML, CSS, and Bootstrap to create responsive and user-friendly designs.
- Helped to troubleshoot and debug code and assisted with implementing new features.

ABOUT ME

"I am a recent graduate with a Bachelor's degree in Computer Science. I have experience in building web applications using Laravel, HTML, CSS, Bootstrap, and JavaScript. I have a strong understanding of software development principles. I am able to work well in a team environment and deliver high-quality code. I am passionate about staying up-to-date with the latest technologies and industry trends. During my internships, I have assisted senior developers in building and maintaining web applications, worked on front-end and back-end, contributed to code reviews and testing, helped to troubleshoot and debug code and assisted with implementing new features. I am proficient in Laravel, HTML, CSS, Bootstrap, JavaScript and Agile development methodologies, version control using Git. With a strong problem-solving skills, I am able to work well in a team environment."

SKILLS

HTML5 CSS Javascript Bootstrap
Ajax Php Laravel WordPress
Jquery GitLab MySQL Sql server
